Please convey my opposition to House Bill 4637 to transportation committee members. SE Michigan has played the politics of division for too long and resulted in our being the most transit unfriendly metropolitan area in the country. With suburban poverty rates in Metro Detroit growing over 100% since 2000 (Brookings Institution) – public transportation is more important than ever. Opt out sabotages the “regional” in regional transit.

Public transit makes access to opportunities (jobs, education, healthcare, retail) real for all of us not just those with cars.
